The boys have won the last six games from the Regulars and the men have gathered their best team together for the contest tomorrow and intend to "put one over" the Stars this time. FRIDAY

Cananea Mines

Will Not Close

Although it had been feared that the Cananea Consolidated Copper company would close down its plant entirely, it was yesterday announced that it would continue to operate as at present. This means that while no more men would be employed, the mines and smelter will work on the basis of about 50 per cent of the normal force employed. There will be no reduction in wages.

The company, according to the figures of men who know, can make no money under the present chaotic condition of the copper market, in fact may lose some. However, the matter was fully discussed before decision was arrived at and it was decided that too great an amount of suffering would be entailed should the plant close. The company is to be highly commended upon its course.

Women Can Own Three Homesteads

A Phoenix dispatch says:—How a woman may get three homesteads for her very own—where another, less oddly situated may only have one, is a land law quirk that developed at John J. Birdso's office yesterday. A woman wrote into the office that she had occupied her deceased husband's homestead since his death, but hadn't yet proved upon it. "If I should marry a man who has already taken up a homestead, could I keep mine?" she asks.

In reply, Chief Clerk Jim Levin wrote back and said she could not only keep her dead husband's land and that of her live husband, but could go on another homestead and prove it up for herself—making the three. He enclosed copies of the law, showing that a widow may get title to her husband's land, in due time, and without living on the homestead.

Marriage Licenses Issued

That the month of June came near being the banner month for marriage licenses is evidenced by the fact that in that month this year a total of 65 licenses were issued out of the office of Clerk James, of the Superior Court, by "Copied's agent," C. B. Wilson. A total of 66 marriage licenses in one month is the record for Cochise county and this is for the month of June, 1913. Fifty-four licenses were issued in the month of July, and so far this month 12 licenses have already been issued.

Douglas Smelters

Release Men

A Douglas dispatch says:—There was great speculation on the streets yesterday as to what action in the line of force reduction the smelters here will take. The keynote of Contributions from Arizona can be made direct to the headquarters of the organization at Washington, or through Gov. Hunt.

The day was the closing down of three furnaces at the Copper Queen smelters, which resulted in the laying off of 100 men. The O & A company, although reported to have made a move on Tuesday toward closing down a portion of the plant, did not do so. Action was delayed pending completion of a conference between Superintendent Clark, Captain J. C. Greenway and others, which took place yesterday afternoon in Warren.

What decision was reached is not known here.

Neither did the Cananea company make announcement of policy as was anticipated. A definite announcement is expected to be made today. It is expected that a small portion of the plant will be kept running in order to ward off actual starvation.

The maximum price for silver has been fixed at ten cents per ounce for the present.

Ringleaders of Plot Are Captured

A Phoenix dispatch says:—Eight Mexicans, said to be ringleaders in a plot to start a revolution in the Salt River valley, are in the county jail.

They are federal prisoners and letters in the possession of the United States officers show that their plot was to capture the army at Tempe, arm themselves with the 75 Springfield rifles there, capture a train and take Phoenix by surprise.

Great secrecy is maintained by officers who are on the trail of others implicated. The first intimation of the plot came from Frank H. Thacker, an Indian agent at Sacaton.

The party got about a mile out of Fairbank when the severe storm of yesterday afternoon overtook them. They were forced to stop the machine, and stood in one spot for about five hours, stranded. The flood waters, they state were away above the running board, and travel was impossible. After remaining until nightfall the party set out on foot and walked to the ranch of Tom Larrieu, where they were given dry clothing and shelter for the night. The car was hauled out this morning, and the members of the party were only too glad to start for home. WIFE OF PRESIDENT OF THE UNITED STATES PASSES AWAY

Mrs. Woodrow Wilson Dies This Afternoon at the Capitol

WASHINGTON, D. C., August 6, 1914.—Mrs. Woodrow Wilson, wife of the president of the United States died at 5 o'clock this afternoon. The end came as the result of about four months' illness, and up until last night the physicians were hopeful. The President and the immediate family were at the bedside when the end came. The whole city is in mourning at the death of the first lady of the land.

The devoted President has been at the bedside constantly and from the sick room he has been giving directions for the relief of over ninety thousand stranded Americans abroad. The press of domestic legislation, the European war and the Mexican situation and the hurry over financial matters throughout the country have weighed heavily upon him as he has maintained his day and night vigil.

The President is near a nervous breakdown and prostrated with grief. Telegrams of condolences are coming in by the hundreds to the grief-stricken President and family.

MONDAY

It is expected that no less than about fifteen motorcycles from this city as well as a similar number from Douglas will be entered.

Jimmie Nichols is chairman of the Bisbee committee of arrangements and Dudley Perry of the Douglas committee. Both committees will hold a joint meeting in Douglas some this week to further consider the plans.

HARD FOR THE HOUSEWIFE

It's hard enough to keep house in perfect health, but a woman who is weak, tired and suffering all of the time with an aching back has a heavy burden to carry. Any woman in this condition has good cause to suspect kidney trouble, especially if the kidney action seems disordered at all. Doan's Kidney Pills have cured thousands of women suffering in this way. It is the best recommended special kidney remedy.

CONVINCING TESTIMONY

Mrs. E. Johnson, 1013 N. Park St., Kansas, Mich., says: "For three years I could do a stroke of housework. My back and kidneys were in such bad shape. I was sick almost three months and then had to go to the hospital. I was helped by Doan's Kidney Pills. I gained right away and was cured in two weeks."

(a) pain in my back. I haven't needed any kidney medicine since, for the cure has lasted. One of my friends was cured of kidney trouble by Doan's Kidney Pills too. Get Doan's at Any Store, 50c a Box. DOAN'S Kidney Pills. Foster-McMillan Co., Props., Buffalo, N. Y.

THURSDAY

War Affects

Price of Copper

Advices from Douglas are to the effect that a curtailment of the output of the two local smelters with a consequent cutting down of the working force is likely to take place in a few days. While no orders to this effect have yet been received by the managers of the Copper Queen and C & A smelters here, such orders will be the natural and unavoidable outcome of laying off some of the crews in the Bisbee mines.

While no formal orders have yet been issued, it is announced that between 400 and 500 men will be laid off at the Bisbee mines within a few days. Officials of the Copper Queen company there assert that all married men will be taken care of. The Southwest shaft in division No. 1 will be closed. That is the only division, however, in which operations will be suspended in the Copper Queen property, though work will be curtailed in their divisions.

THURSDAY

Woman Takes Hand

In State Campaign

For the first time in the history of Arizona, a woman has been directly employed to assist in a state campaign. Reese M. Ling, candidate for United States Senator at the democratic primary, and well known by the women of Arizona because of the active interest he took in the suffrage cause two years ago when the women of this state made a fight for the ballot, has employed Miss Myrtle Garrison, newspaper woman and ardent suffrage worker, to write, speak and generally boost for him in his campaign. Miss Garrison has already started upon her duties. Her work is the same as that being done by the men employed by the other candidates.

"I took the place," said Miss Garrison, "because I know Ling to be for national suffrage and it is sent to the senate, there is one sure vote for us when the time comes to vote on the constitutional amendment granting equal suffrage to the women of the United States. I am deeply interested in this campaign and I believe that the women of Arizona will help me in working for a suffrage candidate."

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them: "Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection. The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk. MILES MEDICAL CO., Elkhart, Ind.

Lessons May Not Have to Quit

On account of the closing of the El Paso Smelters it is rumored that the lessons of the Tombstone district will have to suspend for the present time. However today the full crew working at the Lucky One are still at work and indications are that they will continue. Development work by the company as the Tranquility and other shafts will continue according to the best information, and it is hoped that the war situation in Europe will soon clear before something of a more serious nature may happen.
